

Dr. Shrikar Dole
Founder & CEO of SDG Foundation

“Concept of Circular Economy in Water & Circular Economy Practices in Hotel Industry”

Dr Shrikar Dole is the founder and CEO of SDG Foundation. He has a doctorate in International relations and master in business administration. The objective of the foundation is to act outside the black boxes i.e. traditional disciplines;

To integrate knowledge from sciences, management, and social sciences, to address sustainability issues by developing sustainable business models, to promote Corporate Sustainability.

Dr Dole has extensive experience, on large projects (from proposals to planning to execution). His core areas are Sustainable Development, Clean Technology, Technology Transfer, in various capacities both in Governments and private sector and active in formulating sustainability policies, climate action adaptation & resilience plans.

He has developed Technology Guidance Manual on Zero Liquid Discharge (ZLD) for Gujarat Pollution Control Board, which was released by the then Environment Minister for India (Mr. Anil Madhav Dave) in Dec 2016, and De-construction Manual for Indian Construction Industry for GIZ.

He is on the Board of Advisers of IFAT India, Wastech both well known trade events in Environmental technologies. He is also a Mentor with Circular Economy Club, an international network of circular economy professionals and organizations. He also mentors for Start ups with ScaleMinds, and Startupbootcamp Energy Australia

Dr. Dole has developed projects and programs on sustainability & low carbon circular economy, with a network of global experts, Universities and Institutions, to find solutions on complex climate change challenges for Sustainable Development.

Dr. Dole, is a speaker in various forums like Asia Society, Kellogg’s Institute, US India Business Council, Eurochambers, US Asia Forum, and Press & TV and organized several International Seminars, Round tables and conferences. He is an ex-Air Force Fighter Pilot.
